Dear Professor Goldziner:

A few days ago I received a letter from my uncle in Berlin, Dr. Adolph Kohut, enclosing one from you with regard to the possibility of obtaining a degree from the University of Budapest in absentia. Permit me to make it clear to you that the appeal to you or to any other person was entirely unauthorized by me, and was undertaken solely at his initiative, possibly with the intention of rendering me a great personal service. I have never requested any one to procure for me any distinction or reward for which I did not work and which, in consequence was unmerited.

I sincerely hope you will forgive the intrusion on the part of my dear, well-meaning uncle, who is so zealous

on my behalf, and believe me to be,
with faithful & affectionate greetings
from my dear mother & all of us,

Yours Sincerely,

George Alexander Kohut

P.S. Is your health much improved,
and are you not coming to America
at all? Can you not spare the
separate reprints of your article on the
fragment of the letter of 1811 '13 which
you published in the REJ.?

I have not yet seen your article,
and would be grateful for a copy of it,
as also for whatever you can con-
veniently spare of your writings on
any subject.
